

# We plan for a **renovation in your house**

## **Terapivägen 4 A-H, 6 A-D, 8 A-D**

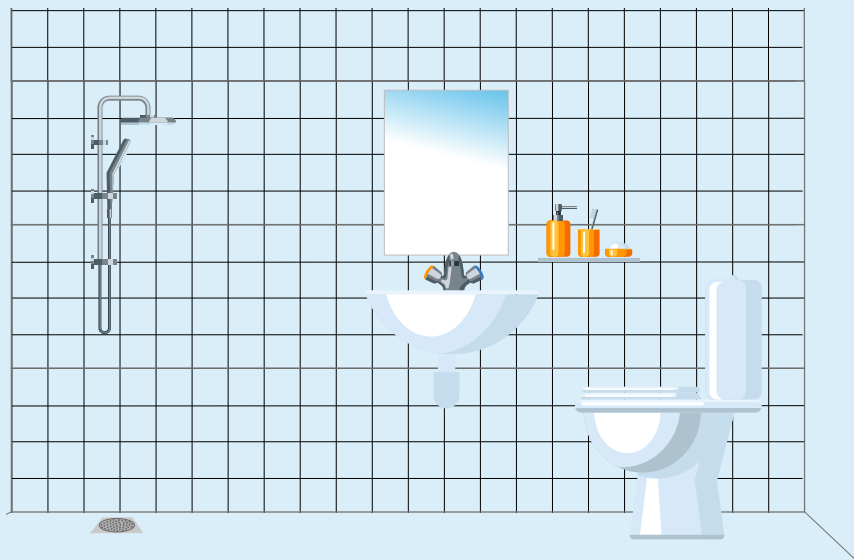

**Hello! The house where you live is about 50 years old. Now the house's pipes for water, sewage and electricity are starting to wear out. Therefore, we are planning for a renovation. Then we replace the stack pipes and other things that have become worn.**

### **A new bathroom**

While replacing the piping and plumbing in the building, we are also renovating your bathroom. In addition to this a number of minor improvements will be carried out in the kitchen, such as a new tap.

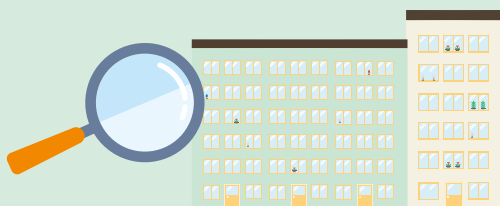

You can also choose the option to upgrade your kitchen to a new one, or choose parquet flooring in one or several rooms.

The renovation of your apartment will take approximately 8-12 weeks.

### **Preparations for the renovation**

For the time being we are preparing the renovation by examining different parts of the building, considering the scope. We plan to kick off the renovation at Terpaivägen 4-8 during 2024, depending on our findings. We will let you know the details well in advance.

### **Invitation to a tenant meeting**

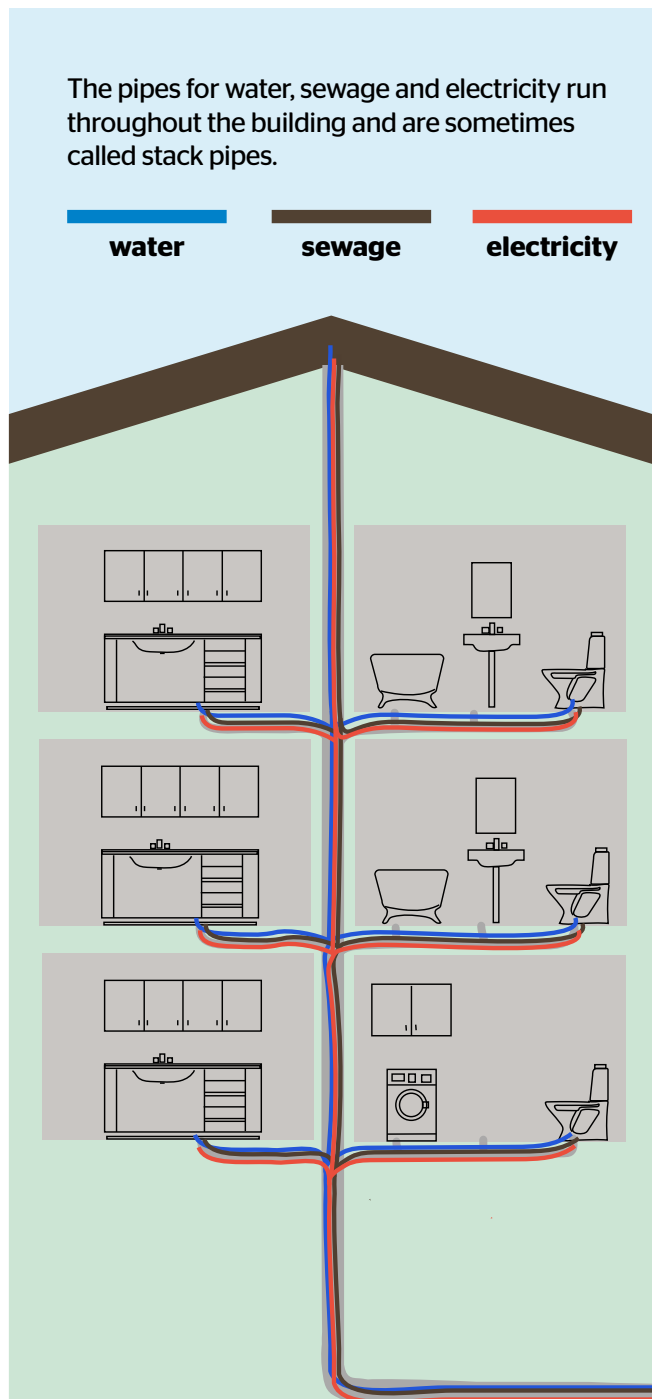

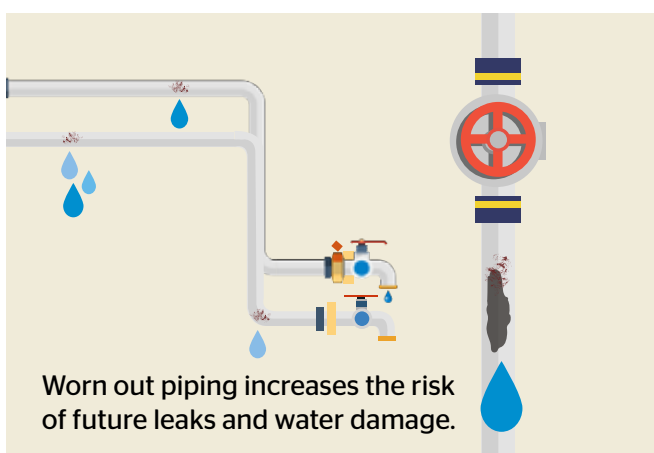

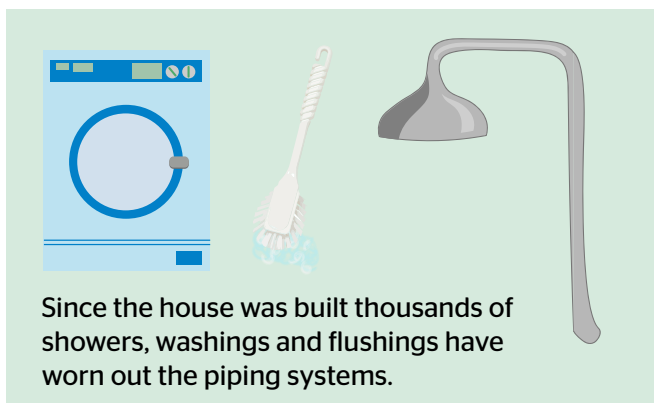

Questions? Right now you don't need to do anything. Later this spring we will contact you with further information. You will also be invited to a tenant meeting. Then you will be able to ask all kinds of questions related to the renovation.
